

Save up to 6% of facility expenses by effectively securing coverage of medications.

## RxAllow

### Avoid and Recapture Part D Non-Covered Charges

RxAllow maximizes prescription coverage and reduces non-covered costs by gaining approval of previously denied Part D claims. With this Medicare Part D denial management solution, facilities can recapture more than half of non-covered costs.

#### A Proven Process

RxAllow provides a step-by-step process to significantly reduce Part D non-covered prescription charges:

1. Med D claim denied
2. PharMerica obtains emergency override and transitional supply from third party payor
3. Fax sent to prescriber and the facility for discussion during weekly call with RxAllow team
4. Facility coordinator secures prescriber signatures for therapeutic interchanges and prior authorizations for future fills
5. Med D claim approved

#### Actionable Reports

Throughout the process, the RxAllow team documents every step and reports the savings in daily and weekly action reports. These documents, available in ViewMasterRx:

- Display details of denied claims
- Show up-to-date status on non-covered claims
- Highlight any required action from the facility

RxAllow delivers a recapture rate of  
**over 66%**  
on previously denied claims.
